SUMMARY

Impact-Driven Software Engineer | Certified Full-Stack Developer | AI and Cybersecurity Enthusiast

EXPERIENCE

Whitefeet Ltd

Mar 2025 - Present

Web developer

Lagos, Nigeria

- Design, develop, and maintain the corporate website (whitefeetltd.com) using JavaScript, HTML, and Vanilla CSS, supporting the firm's real-estate, registration, and printing services, resulting in a single online portal that improves client access to all offerings
- Engineer a responsive interface with JavaScript that combines property sales, CAC registration, and branding services into one digital experience, making navigation easier for users and reducing the steps needed to find information
- Lead ongoing site maintenance, performance optimization, and content updates to ensure high availability, fast load times, and alignment with the firm's operational goals.

E-commerce Platform for Farm-to-Door Foodstuff Delivery

Mar 2025 - Mar 2025

Frontend Developer

Lagos, Nigeria

- Developed the frontend of the online store using JavaScript and Tailwind CSS, implementing responsive layouts and a streamlined checkout flow, which improved user experience and reduced page load times
- Designed and implemented responsive UI components and intuitive navigation with CSS media queries and Tailwind utilities, enabling seamless access across devices and increasing mobile user engagement
- Leveraged Tailwind CSS and vanilla JavaScript to optimize performance and scalability, resulting in faster interactions and a smoother checkout experience

SKILLS

- **Programming:** JavaScript, Python
- **Web Development:** HTML, CSS, D3.JS, React, Zustand
- **Tools:** Node.js, Vite, Git, Express.js
